

# How to link your Covid Vaccination to QLD check in App with an: **iPhone**

## STEP 1

As you would have when first downloaded

Update the QLD Check In app Via Safari

Search QLD Check In

Select App

Select Update

Do you have **myGOV** account?

**NO**

To create a **myGOV** account, you will need:

- Your email to access it (As they will send you a passcode to continue setup)

- Type **myGOV** into Safari

- Scroll down to **“Create a myGOV account”** and fill in required fields.

**YES**

- Log into your account

- Will require your email and password

- You may possibly require an SMS code

Do you have **medicare** link?

This is where your vaccination details are stored

**NO**

- Via the myGOV app, select services

- Select Medicare-Link a service

- If you can answer the questions, do so. If you're unsure, call Medicare on 132011 and request a linking code. (You will need Medicare Care, Driver's License, Bank details, CRN# for Centre Link)

- You will be taken through a lot of questions

**YES**

- Access the Medicare App

- View proof of vaccination

- View History then scroll down

- Select “Share to QLD Check in App”
